Recognising Local Government
leaders for outstanding achievements

**LEADING
THE WAY**

Mayor Tracey Roberts JP, President WA Local Government Association

In our second year of managing the challenges of the global COVID-19 pandemic, we are again reminded of the importance of investing in our local communities.

With international travel at a standstill, and limited travel options outside of the State, it has never been a better time to turn our focus to our local communities.

Here in Western Australia, we have been incredibly lucky in facing the pandemic.

We are fortunate to have access to many amazing places, that we can visit, explore and enjoy both in regional Western Australia and in our cities.

We also have unparalleled services, programs and infrastructure available to all demographics right across our vast State, which have ensured our quality of life has remained outstanding even in the face of such global adversity. These local initiatives have been instigated by dedicated community representatives, including Elected Members and Local Government officers, who have ensured our State is a fantastic place to live, work, and travel.

In our 2021 Honours Program, I am delighted to acknowledge the services of a group of exemplary leaders who have all played a significant part in creating the communities that we are all proud of across Western Australia.

These leaders have committed so much more to our local communities than we can ever document in this Honours Program and I thank them all for their vision, their service and their compassion for others in our cities, towns and regional areas.

The 2021 Honours Program recognises outstanding leaders from Karratha in the North, to Albany in the South, and Leonora in the East. We also recognise many metropolitan representatives, who have dedicated their lives to improving their local communities.

This year I am delighted to award WA Local Government Association Life Membership to Russel Fishwick, who has given 15 years of service to the City of Joondalup and many years of service to the WA Local Government Association. He has also dedicated over 40 years of his life to Local Governments as an employee of the Cities of Perth, Wanneroo/Joondalup and Victoria Park. Russel played an important role in the way we are now able to vote in Local Government elections, through improving the postal voting system during his time with the WA Electoral Commission.

Congratulations to our six Eminent Service Award winners Leigh Ballard, Gary Brennan, Rhonda Cole, Noel Dew, Ian Dolton and Dennis Wellington. All these leaders have undertaken major roles in driving exciting and innovative projects in their local communities. It is these types of visionary projects that ensure our communities thrive and prosper and are wonderful places to be.

Congratulations to the 23 WA Local Government Association Honours Awards winners. They are all extremely worthy recipients and I am continually inspired by the quality of local leadership we have across all our Western Australian communities.
